This seminar is about your birth story and, specifically, how the five stages of your birth process affects your ability to create, sustain, and evolve intimate loving relationships. Birth is perhaps the most intimate experience of our lives, and the connection we form (or not) with our mothers in the uterus and during the process of coming out sets the stage for future loving bonds. Bob Mandel, one of the original certified rebirthers and pre-and-perinatal therapist, will guide you to a greater understanding of your life's beginning while helping you to open up to more love and intimacy in your life today.

**Bob Mandel** has been a pioneer and one of the most important internationally recognized leaders in the practice of Rebirthing since the '70. Founder of ISLP, International Seminars Leadership Programs, and creator of ISEP, International Self-Esteem Project, he is also author of several books, including Money medicine, Open heart therapy, Two hearts are better than one, 9 journeys home, Wake up to wealth.
