In this intensive we will turn our attention to the meaning of leadership in a new world. We all know the failures of traditional patriarchal leadership, where to lead means to have power and control over others, But what are the possibilities for leadership when we want to live a spiritual life in a physical universe. When we open our minds to new light, we can see that everyone is a leader in some way because we are all influencing each other with our thoughts, words, and behavior. When you are a parent, teacher, therapist, artist, doctor, engineer, or technologist you have the ability to generate positive results in your relationships and career, thereby supporting the world to evolve spiritually.

In this intensive you can also access your leadership type and your personal mission in life.

**Bob Mandel** has been a pioneer and one of the most important internationally recognized leaders in the practice of Rebirthing since the '70. Founder of ISLP, International Seminars Leadership Programs, and creator of ISEP, International Self-Esteem Project, as well as author of several books, including "Money medicine", "Open heart therapy", "Two hearts are better than one", "9 journeys home", "Wake up to wealth".
